

Oracle: ZRADA PO 1989, DOLÁROVÁ APOKALYPSA (VIDEO)

- CZ24 News | 15. července 2022

To, čo sa udialo v Česku, udialo sa aj na Slovensku a inde v bývalom Východnom bloku. Našťastie pre väčšinu žijeme v časoch apokalypsy a pravda zradcom ako Dzurinda, Mikloš, Lipšic nielen na prach obráti všetko, za čo bojovali, ale aj im odoberie klud na tomto svete.

Tak [Blízky Východ](#), ako aj [India kašľú na Západné výzvy k sankciám proti Rusku](#) lebo buď dovážajú ruskú ropu alebo ruské ropné produkty. Dodávam, že aj keby poslúchli, tak Rusko je už sebestačné a môže si dovoliť výpadok príjmov. Lenže okrem krajín Západu prakticky žiadny štát nechce spáchať ekonomickú a inú samovraždu a preto nič z toho nebude.

Ďalšia správa: [Saudská Arábia chce vstúpiť do BRICS](#) spolu s Egyptom, Tureckom, Iránom a Argentínou. Do toho [BRICS, ktorý chce sa zbaviť US\\$](#) s tým, že Saudi sú už ruským spojencom (podpísali dohodu ešte v 2021) a preto Biden môže ponúknuť tak akurát prázdne sľuby a bezcenný US\$, čo na [rozbitie aliancie Ruska a Saudskej Arábie nebude stačiť](#). A mám podozrenie, že:

- Bidena aj v lepšom prípade vypoklonkujú;
- dohoda o BRICS mene a Saudského členstva je hotová vec.

Mimochodom, Saudská Arábia sedí okrem ropy aj na inom prírodnom bohatstve a sú na mieste dohody podľa ktorých Rusi tieto zdroje rozvinú.

Ron Paul hovoril o náraste inflácií ešte v novembri 2021:

By creating many trillions of new dollars out-of-thin-air, The Fed set in motion an economic disaster.

The warnings are over. Inflation is now here.

Every excuse will be offered up as "the reason" for economic pain.

Don't be deceived. The unconstitutional Fed is the reason.

Pfizer Vaccine Impairs Sperm Count—Conspiracy Theorists Were Right

RAV ARORA

A new peer-reviewed study published in the journal *Andrology* on June 17 vindicates another dark suspicion about COVID-19 vaccines: They harm male fertility. Specifically, researchers find declining sperm counts for up to five months after the second dose of Pfizer's mRNA COVID-19 jab.

Previously, any legitimate questions about COVID-19 vaccination affecting fertility were dismissed using the perverse rhetoric of "there's no evidence" (it's dependent upon the advocates of a universally distributed medical product to prove it's safe, not the other way around). Then, there was a published study that seemingly disproved any male fertility concerns.

"We now have evidence that should reassure you that the risk of immunization compromising your sperm count is extremely low," Dr. David Cohen, a reproduc-

Heart disease in children explodes since vaccine

Sudden deaths of children soar as media stay silent

THE greatest crime ever
committed by an Irish
government - and there
have been many - will not be
revealed from the Irish people
much longer. As hard as
HSE tries to cover up the
devastating impact of the covid
vaccine on Irish children, there
is nothing the staggering
number of sudden deaths in young

children. The faces of specty
and newborn infants appear
everywhere. Perfectly
healthy children struck down by a
heart attack, stroke or sudden
death.

There has also been a sharp rise in
children and severe hepatitis
type 1 (of the liver) in children
which has been seen in at
least three countries including Ireland.
So many healthy children
have changed in their lives
we all know the answer but
not have the courage to
because they know they
are the same fate.

Child psychiatrist Dr Peter
Keane recently about the
of concern and outrage
by members when
after the vaccine. He
has said that since the advent
of these people
state where they
to the death of a
has been caused
by cognitive

dissonance and denial often witnessed
in parents whose perfectly healthy
toddler becomes violently autistic in
the aftermath of the MMR vaccine.
They know what changed their child
overnight but cannot state it publicly
because they are the ones responsible.
And so it is with the covid vaccine.

how many children whose lives have
been wiped out were urged to take it by
their reckless parents? They will have
to live with that for the rest of their
lives. If only they knew the peace and
strength they would feel if they could
find the courage to speak out and save
other young lives. At least their child's

death would not have been in vain.
But soon the dam of silence will
burst because the injury levels are too
alarming to ignore.

In the US, the number of injuries
and deaths recorded in the government
database of Vaccine Adverse Events
Reporting System (VAERS) following

covid vaccines has soared above 1.2
million cases.

This represents an increase of
3000% compared to the previous 30
years of vaccine use.

In the world of sport, there has been
at least 930 post-vaccine heart attacks
and more than 620 deaths.

As of March 24, 2022, VAERS
had received 2,323 reports of
heart inflammation among people
aged 30 years and younger who
received the vaccine.

Youngsters involved in the GAA
- which took a draconian approach
to vaccination - have been dying at a
terrifying rate.

RTE and the rest of the mainstream
media, which could not exist without
Big Pharma/HSE funding, should be
interrogating the sporting organisation
as to why so many of its young
members are dropping dead. But
instead they close ranks refusing to
even acknowledge the sheer numbers
who are dying and try to normalise
sudden death, heart disease and strokes
in children or cynically imply that the
child committed suicide.

It is a crime which will seal their
demise when the public finally learn
the truth about how they were duped
into taking this lethal experimental
drug.

Even the manufacturers admit in the
small print that their vaccines have side
effects.

Pfizer released a document listing
over 9 pages of over 1200 adverse
events of special interest.

Bad mimetic ideas – like the green/ESG movement – have bad consequences.

Sri Lanka self-inflicted itself into a food crisis, and now, a revolution. Germany is going to be rationing electricity. Dutch farmers are revolting.

The bill of green-agenda is coming due.

Sri Lanka implemented a **NATIONWIDE** ban on synthetic fertilizers and pesticides in 2019 as part of the government's investment pitch to the Davos international elite of Sri Lanka as a "hip new green nation."

Now, predictably, the island is starving.
