

Příběhy 30 zdravotních sester u nichž se objevila turborakovina poté, co jim byla vnucena Covid injekce

- CZ24 News | 30. srpna 2023

V tomto článku z blogu Dr. Williama Makise najdete příběhy 30 žen, většinou zdravotních sester, které si musely na příkaz zaměstnavatele – a pod pohrůžkou ztráty práce – nechat aplikovat genové injekce.

Všem byla nově diagnostikována agresivní rakovina.

Typy rakoviny, které se u žen náhle objevily:

- Lymfom – 6
- Rakovina tlustého střeva – 6
- Prsa – 5
- Plíce, leukémie, melanom – po 2
- Srdce, mozek, slepé střevo, žlučník, leiomyosarkom – po 1

Komentář od dr. Williama Makise:

mRNA vakcíny proti COVIDu-19 způsobují agresivní turborakoviny, které se často vyskytují v pokročilých stádiích (obvykle 3. nebo 4. stádium), rychle rostou, rychle se šíří nebo metastázuji a jsou obecně odolné vůči konvenční léčbě rakoviny (chemoterapie, ozařování).

ZÁVĚR: Je šokující vidět tolik mladých sester trpících tak agresivními terminálními rakovinami.

Když jsem poprvé viděl turbo rakovinu u očkováných, byla to leukémie, lymfom a glioblastom (rakovina mozku), které zabily očkované v řádu týdnů, dnů, někdy i hodin.

Ale jako onkolog jsem zděšen tím, že se „z ničeho nic“ objevuje tolik rakovin prsu a tlustého střeva v pozdním stádiu.

Něco tady nehraje.

„Obávám se, že tento vzorec uvidíme u lidí všech povolání, pro které bylo očkování mRNA COVID-19 povinné,“ uzavřel Dr. Makis.

U 30 zdravotních sester se po očkování proti Covidu objevila turborakovina (rychlá rakovina):

- Červenec 2023 – Bossier, LA – Letuška Yvette Monique Heiman (56) zemřela 29. července 2023 na vzácnou rakovinu srdce, která se rozšířila do mozku. S tímto vzácným nádorem bojovala rok.
- Červenec 2023 – El Dorado Hills, CA – Zdravotní sestře Amy Cooneyové byla v listopadu 2021 diagnostikována rakovina tlustého střeva ve 4. stádiu. Stále se potýká s experimentální léčbou.
- Červenec 2023 – Columbus, GA – Zdravotní sestra Sabrina, která pracuje v St. Francis, má 8měsíčního chlapce, kterému byla právě diagnostikována metastatická rakovina 4. stupně.
- Červenec 2023 – Trinity, NC – Sestře Lindsey Brimové byla diagnostikována agresivní rakovina

prsu 4. stupně, která extrémně rychle roste (až 10 cm).

- Červenec 2023 - Kansas City, KS - Amanda Sprinkle je asistentkou a sestrou baseballového hráče Astrose Jonathana Sprinklea. Nedávno jí byla diagnostikována AML leukémie.
- Červenec 2023 - Kamloops, BC - Sestře Brandy Schmidtové byl diagnostikován metastatický melanom 4. stupně.
- Červenec 2023 - Grand Rapids, MI - Sestře Evonne byl diagnostikován agresivní difuzní velkobuněčný B-lymfom.
- Červen 2023 - Louisville, KY - Sestře Shannon Mackinové byl v září 2022 diagnostikován Hodgkinův lymfom ve 2. stadiu. Lymfom je odolný vůči chemoterapii.
- Červen 2023 - Malden, MA - Sestra Sylvia Brienza McEwenová byla v květnu 2022 diagnostikována s rakovinou tlustého střeva 4. stadia, která se rozšířila do jejích jater.
- Červen 2023 - Gates, TN - Zdravotní sestře na pohotovosti Jordan Mitchellové, 26, byla diagnostikována rakovina prsu ve 4. stádiu s metastázami do jater, plic a kostí.
- 20. června 2023 - Dallas, Texas - Eber Delgado, zdravotní sestra v domácí péči, byla nedávno diagnostikována s rakovinou slepého střeva ve 4. stadiu.
- Červen 2023 - Santa Monica, Kalifornie - Brady Hicks, 40 let, registrovaná zdravotní sestra, byla diagnostikována s DLBCL non-Hodgkinovým lymfomem ve 3. stadiu.
- Červen 2023 - Los Angeles, Kalifornie - Sestře Claudii Lizarragové byla v lednu 2023 diagnostikována rakovina prsu. Po operaci lékaři zjistili, že jde již o 4. stadium.
- Červen 2023 - Covington, LA - Sestře Shaně Thomasové byl diagnostikován DLBCL lymfom.
- Červen 2023 - Brandon, FL - Sestře Heidi Rogersové byl diagnostikován cholangiokarcinom 4. stupně (rakovina žlučovýchodů).
- Červen 2023 - New York - Sestře Eleně Mandelbaumové byla diagnostikována vzácná forma leukémie.
- 20. května 2023 - Frenchman Bay, WA - Zdravotní sestře Sam Lynchové se v září 2022 narodila dvojčata a o necelý týden později jí byla diagnostikována rakovina tlustého střeva ve 4. stádiu. Stále bojuje.
- 20. května 2023 - Hamilton, TX - Sestře Lise Newbyové byl diagnostikován vzácný metastatický leiomyosarkom ve 4. stádiu.
- 28. května 2023 - Syracuse, NY - Tera Schilling, 39 let, sestra na onkologii, zemřela 28. května 2023 po krátkém boji s rakovinou.
- Květen 2023 - Maui, Havaj - Sestře Courtney Tsark byla v listopadu 2022 diagnostikována rakovina tlustého střeva ve 4. stádiu.
- Květen 2023 - Edmonton, Alberta - Dětské sestře Kristině Garbaria-Yubové byla diagnostikována rakovina 4. stadia s metastázami do mozku a plic.
- 1. května 2023 - Sparks, NV - 1. října 2022 byl zdravotní sestře Saře Carolla-Volkové diagnostikován melanom 4. stadia s metastázami v mozku.
- Květen 2023 - Wolcott, CT - Zdravotní sestra Heather Podzunas Hogaboom, 39, zemřela 8. května 2023. První vakcínu Moderna mRNA dostala 24. prosince 2020 a druhou 21. ledna 2021. O 4 měsíce později jí byla diagnostikována rakovina tlustého střeva ve 4. stadiu.
- Květen 2023 - Laguna Hills, CA - Studentka ošetrovatelství Sofie byla diagnostikována s lymfomem, kvůli kterému opustila školu ošetrovatelství.
- 20. května 2023 - Santa Cruz, Kalifornie - Shyama Mohini, 20 let, studentka ošetrovatelství, je diagnostikována s Hodgkinovým lymfomem ve 4. stádiu.
- Květen 2023 - Milwaukee, WI - zdravotní sestra na JIP Sherry Zych byla diagnostikována s bilaterální rakovinou plic 4. stupně.
- Březen 2023 - Montgomery, AL - Reidě Williamsově, 36leté zdravotní sestře, byla diagnostikována rakovina tlustého střeva 4. stadia, která se rozšířila do jater.
- Únor 2023 - Hamburk, NY - Před třemi lety byla zdravotní sestře Kelly Englertové diagnostikována rakovina plic, která se právě rozšířila do jejího mozku.
- Leden 2023 - 32leté onkologické sestře April Addisonové byla den po porodu jejího syna

císařským řezem diagnostikována rakovina prsu. V její rodině nejsou žádné případy rakoviny prsu.

- Leden 2023 - Bellingham, WA - Sestře Devyn Nixonové byla diagnostikována rakovina prsu.

It is with a VERY heavy heart I post this message.
From her husband:

Yvette Heiman, (fellow flight nurse), passed away early morning, 29 Jul 23. She died of a rare cancer that originated in her heart and then spread to her brain and spinal fluid. She fought it bravely for one full year. Throughout, she never lost her beautiful spirit or her beautiful smile. I'm happy to tell you she experienced little discomfort during hospice and she died peacefully.

They are not having an online obituary etc. They request no flowers or donations. No contact to the family at this time.

A few of us flyers are putting together a slide show for her family and friends.

The ask: if you have any pictures of Yvette, please text to 618-978-2907.

She will be greatly missed by all.

Bossier City LA

July 24, 2023 - El Dorado Hills, CA - Nurse Amy Cooney was diagnosed with Stage 4 colon cancer in Nov.2021. She is still fighting with experimental treatments.

Amy Cooney's Fight Against Stage 4 Colon Cancer

Katie Hunter is organizing this fundraiser.

Created 5 days ago •  [Medical](#)

Dear Friends, Family, and Kindhearted Strangers,

We are reaching out to you today on behalf of our beloved Amy Cooney, a devoted wife, loving mother, and compassionate nurse who has recently been faced with an unimaginable challenge. In November 2021, Amy was diagnosed with stage 4 colon cancer, and since then, she has been battling this formidable disease with unwavering strength and determination. As her journey continues, we are seeking your support to

July 23, 2023 - Columbus, GA - Nurse Sabrina works at St.Francis Hospital, has an 8 month old boy and was just diagnosed with Stage 4 metastatic cancer

Step by step. Day by day.

Kimberly Webb is organizing this fundraiser.

Created 6 days ago •  [Medical](#)

Hey! I'm Kim, an OB nurse at St. Francis, and I am fundraising for a sweet friend, wife, mother, and co-worker.

Sabrina was diagnosed with stage 4 metastatic cancer recently and will begin treatment soon. Her treatment will involve travel out of state periodically, so I am hoping that we

July 22, 2023 - Trinity, NC - Nurse Lindsey Brim was diagnosed with an aggressive Stage 4 breast cancer that grew extremely rapidly (to 10cm)

Lindsey Brim's fight against Breast Cancer

Sarah Plyler is organizing this fundraiser.

Created 3 days ago •  [Medical](#)

"I found a lump" the scariest words my sister has ever whimpered to me. Little did I know this was just the start of her journey against breast cancer.

On June 12, 2023 my sister, Lindsey Brim, wife of Brett Brim, mother of Cassidy (12) and Jase (10), daughter, sister and friend to ALL, received results of her biopsy that concluded a high grade 3, hormone positive, invasive ductal carcinoma with positive axillary lymph nodes. Breast cancer! How can this be? We do not have breast cancer in

"I found a lump" the scariest words my sister has ever whimpered to me. Little did I know this was just the start of her journey against breast cancer.

On June 12, 2023 my sister, Lindsey Brim, wife of Brett Brim, mother of Cassidy (12) and Jase (10), daughter, sister and friend to ALL, received results of her biopsy that concluded a high grade 3, hormone positive, invasive ductal carcinoma with positive axillary lymph nodes. Breast cancer! How can this be? We do not have breast cancer in our family!

I immediately pulled any and every medical professional I have met throughout my career to offer words of wisdom, connections and advice. High Point Hospital, this sweet little community hospital, full of amazing medical doctors, anesthesia providers, nurses, and hospital staff showed up and showed off for us. Lindsey was able to get scans, port placement, genetic screening and support within a week.

Since her biopsy, her breast has tripled in size. What we thought was a massive hematoma from the biopsy puncture site causing this rapid increase, turned out to be a larger tumor within her breast that only the MRI picked up. 10cm x 10cm x 10cm with a 2.5cm x 3cm solid mass protrusion. How? Lindsey said, "I'm so scared." These words crushed me.

July 26, 2023 - Kansas City, KS - Amanda Sprinkle is a nurse and sister of Astros' Baseball player Jonathan Sprinkle. She was recently diagnosed with AML leukemia

Astros' Jonathan Sprinkle Puts Aside Baseball; Assists In Sister's Cancer Battle

By Kenny Van Doren Published July 16, 2023

A month into this season, [Jonathan Sprinkle](#) answered a phone call and heard life-altering news on the other end. His sister, Amanda, had been diagnosed with acute myeloid leukemia, a cancer of the blood and bone marrow.

Sitting in the parking lot of Whataburger Field in Corpus Christi, Texas, Sprinkle wanted to rush home. It took all the persuasive powers of both Amanda and his mother, Laura, to convince him to stay with the Hooks and focus on baseball until a treatment plan for Amanda was in place.

From watching a movie to playing a board game, Jonathan wants to be Amanda's rock as she eases back into her normal life. There isn't a set timetable for when life can return to normal for Amanda, though, but her battle with cancer changed her outlook on her job as a [nurse](#).

July 17, 2023 - Kamloops, BC - Nurse Brandy Schmidt was diagnosed with Stage 4 metastatic melanoma

Brandy's Battle

Hi, my name is Mia and I'm fundraising for Brandy Schmidt. For those of you that have had a chance to know Brandy, I know there aren't enough good things you could say about her. For those of you that haven't had a chance to meet her, well let's just say she's the kind of friend that would do anything for anyone. In April Brandy ran 80 km for cancer research fundraising efforts, has done the Run For the Cure four times, and has donated 50 inches of her hair to make wigs for those effected by cancer. She helped care for her mom when she underwent cancer treatment while going to nursing school. Not only is she a great friend and family member but she's an amazing nurse that brings joy to others and gives back to our community. Brandy is a loving wife and mother of two beautiful kids. Recently our lives have been turned upside down as our kind and loving friend has been diagnosed with Stage 4 Metastatic Melanoma and will be off of work for at least a year while she undergoes treatment. I'm reaching out and asking for support so Brandy can focus on fighting and prioritize healing. Thank you for your time and supporting Brandy's Battle #cancersucks

July 8, 2023 - Grand Rapids, MI - Nurse Evonne was diagnosed with an aggressive Diffuse large B-cell Lymphoma

Help Evonne Fight Lymphoma

Heide Rollings is organizing this fundraiser.

In May 2023, Evonne was diagnosed with diffuse large B-cell lymphoma, an aggressive type of non-Hodgkin's lymphoma. Due to a lymph node mass that caused intense kidney and pancreatic pain, Evonne was hospitalized for a week in May before beginning chemotherapy treatment in early June. She will need a total of 6 rounds of R-CHOP chemotherapy treatment over 18 weeks. In addition to the physical and emotional toll this has taken on Evonne, her cancer and treatment have greatly impacted her husband and 6- and 9-year-old daughters. To help out, her mother has been staying with Evonne's

June 29, 2023 - Louisville, KY - Nurse Shannon Mackin was diagnosed with Stage 2 Hodgkin Lymphoma in Sep.2022. It is resistant to chemo.

Help Shannon Beat Lymphoma!

Shannon was diagnosed with Stage II Hodgkin's Lymphoma in September 2022. Who knew we would be revisiting in sickness and in health? She started chemo treatments a couple of weeks later and finished them up about 6 months later. In mid May, she had a follow up PET scan to determine if she was in remission or not. We got the results back on June 27 and the cancer is still there.

June 28, 2023 - Malden, MA - Nurse Sylvia Brienza McEwen developed Stage 4 colon cancer in May 2022 that has spread to her liver

Help Syl beat Colon Cancer with Liver Metastases

Roxanne Murden is organizing this fundraiser.

Hello Family and Friends. Thank you for taking the time to read this today and learn about our beautiful girl, Sylvia Brienza McEwen. **Wife, mother, sister, aunt, friend, nurse and warrior!**

As many of you know, my fearless sister Sylvia has been battling stage 4 colon cancer that has metastasized to her liver. Sylvia's battle began in May, 2022. During this time, she has shown the world what it means to be a true warrior and to never give up or stop

June 20, 2023 - Gates, TN - 26 year old Jordan Mitchell, an ER nurse, was diagnosed with Stage 4 Breast cancer metastatic to liver, lungs and bone.

Jordan Mitchell's Fight against Cancer

Jordan is a 26 year old small town girl who loves with everything she has. She's an ER nurse. A Daughter, a Sister, a very loved bonus mama, a girlfriend, and a friend. She's spends her days off traveling, going to the lake, spending time with family and loving on her Fur baby.

Unfortunately, Jordan has had some devastating news. What started as neck pain- turned out to be cancer. Through imaging- she was given the diagnoses of Breast Cancer with Mets to the liver, lungs, and bone (spine.).

June 18, 2023 - Dallas, TX - Nurse Eber Delgado is a Home Health Nurse who was recently diagnosed with Stage 4 Appendix Cancer.

Pay for surgery and hospital bills for my son...

Margarita Segundo is organizing this fundraiser on behalf of Eber Delgado.

Hi,

My name is Margarita, and I am fundraising for my oldest son Eber. He is a dedicated Home Health Nurse working in the Dallas-Fort Worth Metroplex, who has made a parenthesis in his life, and vocation as a nurse, to treat a Cancer that developed in his appendix. He was recently diagnosed with Appendiceal Cancer Stage 4, and already had 2 surgeries, one to remove a tumor that he had inside the appendix, and another to remove tissue, and collect biopsies to determine the severity of his situation; there biopsies were done in preparation for a major surgery that will take place this Tuesday, June 20th, 2023 here in Plano, Texas USA.

June 17, 2023 - Santa Monica, CA - 40 year old nurse Brady Hicks was diagnosed with large masses on his check - Stage 3 DLBCL Non-Hodgkin Lymphoma

Brady's Non-Hodgkins Lymphoma Medical Fund

Kayleen Hicks is organizing this fundraiser on behalf of Peggy Hicks.

The purpose of the fund is to provide Brady and his family funds to recoup medical costs from being airlifted to Stanford hospital, and help with ongoing expenses, since Brady will be off work a minimum of 6 months! Brady had had some minor illnesses and aches and pains since his 40th birthday in March. He thought "he was getting old" and continued to work as an RN at Enloe Hospital and care for his 3 children. On Saturday, June 10th, Brady was at a bookstore, and became short of breath with chest pain. At the Enloe Emergency Room, doctors feared a heart attack, but a CT scan showed 2 very large masses in his chest— one pushing on his heart, and the other, or his airway! He was taken by air ambulance (not covered by insurance) to the wonderful Stanford hospital in Pleasanton. He had an amazing medical team, and was diagnosed with Stage 3 DLBCL

June 16, 2023 - Los Angeles, CA - Nurse Claudia Lizarraga was diagnosed with Breast cancer in Jan.2023. After surgery, doctors found out it was already Stage 4.

HELP OUR FRIEND FIGHT BREAST CANCER

Marissa Flores is organizing this fundraiser on behalf of Claudia Lizarraga.

Family and friends, thank you for taking the time to visit this page. For those who don't know her, here is a little bit about Claudia. She is young, kind, caring, and loving. She is a daughter, sister, cousin, friend, and dedicated Registered Nurse. She has a passion for caring for her patients and a passion for teaching those who want to do the same. She is smart, full of life, and looks forward to the adventures she has ahead of her... But now she is on the other side of medicine, as a patient herself, and needs our support during this difficult time.

On January 4, 2023, Claudia was diagnosed with Breast Cancer. After surgery and further testing she learned that it was already Stage 4. With a fire in her heart, she is

June 13, 2023 - Covington, LA - Nurse Shana Thomas was diagnosed with DLBCL lymphoma

Shana Thomas Medical Living Expenses during Chemo

Katrina Anderson is organizing this fundraiser on behalf of Shana Knesel.

My name is Katrina Anderson and I am raising funds for my sister Shana Thomas.

My sister, Shana, was recently diagnosed with Diffuse Large B-cell Non-Hodgkin's Lymphoma (DLBCL). Like others who have been affected by cancer, this diagnosis came as a shock and has left her and her family in distress.

Shana is 53 years old and is a Registered Nurse at Lakeview Hospital's Emergency Room in Covington, Louisiana. For 29 years, Shana has been selflessly dedicated to the field of nursing and comes from a lineage of medical professionals. She has always been

June 12, 2023 - Brandon, FL - Nurse Heidi Rogers was just diagnosed with Stage 4 Cholangiocarcinoma (biliary ducts)

Heidi Rogers is organizing this fundraiser.

As many of you may have heard Heidi has been sick for past couple of months. Unfortunately, last week she was given some concerning news. Testing came back concerning for Lymphoma. Although, this is not a definitive diagnosis yet, this is the major concern. She is currently undergoing biopsies, multiple tests, multiple specialist and hopes to start treatment ASAP. She is currently missing work and has been required to pay large deductibles for her test. Please help her through these challenging times to offset the medical bills, deductible and lost wages. After all, she has dedicated the last 20+ years to helping others as a Baycare/Excelis Emergency Room Nurse Practitioner ❤️.

Update:

Cholangiocarcinoma advanced stages 4. Oncology has already reached out to moffitt for a second opinion and see if I qualify for any trials . I start chemo Wednesday

June 2023 - New York - Nurse Elena Mandelbaum was diagnosed with a rare form of leukemia

When a Nurse Needs Care

Rachel Prince is organizing this fundraiser on behalf of Elena Mandelbaum.

Created 3 days ago •  [Medical](#)

My friend Elena could really use your help. She has been diagnosed with a rare form of blood cancer and Covid dysautonomia. These conditions are preventing her from being

May 31, 2023 - Frenchman Bay, WA - Nurse Sam Lynch gave birth to twin girls in Sep.2022 and less than a week later she was diagnosed with Stage 4 bowel cancer. She is still fighting.

Donate to help Sam Lynch and her family

Lauren Fenwick is organizing this fundraiser on behalf of Samantha Lynch.

Hi,

This is our beautiful friend Sam. She is a Mother, Wife, Daughter, Daughter-in-law, Nurse and Friend. We are fundraising to help and support her gorgeous family in any way we can through her bowel cancer journey.

Sam gave birth to her healthy, little twin girls in September, 2022. Less than a week later she was diagnosed with stage 4 bowel cancer.

May 31, 2023 - Hamilton, TX - Nurse Lisa Newby was diagnosed with a rare metastatic Stage 4 leiomyosarcoma

Be HERE for Nurse Lulu Newby

Elizabeth Bryan is organizing this fundraiser on behalf of Lisa Newby.

This is Liz Bryan, coworker to the beloved Lulu Newby R.N. at Baylor Scott and White Rehab. I'm asking you to help Lulu and her husband George, children and grandchildren through a really tough time. Lulu has recently recieved the worst news about her rare cancer leiomyosarcoma diagnosis the metastatis is no longer controled, she is stage 4. Lulu has worked at Baylor Rehab for over 10 years, and loved by many, she been awarde Nurse of the Year twice, this award is voted for by coworkers, the Daisy award she

. "

May 28, 2023 - Syracuse, NY - 39 year old oncology nurse Tera Schilling died on May 28, 2023, following a "short battle with cancer".

Today's obituary: Tera Schilling was an oncology nurse, died of cancer

Published: May, 31, 2023, 3:00 p.m.

Tera Ann (Williams) Schilling, 39, died May 28.

By [Sharon Dellinger](#) | sdellinger@syracuse.com

Tera Ann (Williams) Schilling, 39, of Syracuse, died May 28 following a short battle with cancer.

She was a 2001 graduate of Westhill High School and went on to attend SUNY Brockport and Onondaga Community College. She graduated from LeMoyne College with a bachelor's degree in psychology.

Schilling went to work for Dunk & Bright and later began teaching pre-k at Little Apples Daycare.

She began working towards a degree in nursing from Crouse School of Nursing in 2019. Throughout the pandemic, she continued to pursue her degree, teach her pre-k class via Zoom and help her three children with their studies and remote classes.

In 2021, Schilling graduated from Crouse and began her career as a nurse in the oncology unit at Crouse Hospital. When she got cancer herself, she was admitted to the same unit to be cared for by her colleagues.

Schilling was an SU football fan. A friend who shared the stands with her wrote this tribute on her funeral home page: "Section 329 of the Dome will never be the same without Tera sitting right behind me... She was all in on the "first down Orange cheer:"

Another person wrote: "Tera's care for my husband... is a forever memory in my heart."

May 21, 2023 - Maui, Hawaii - Nurse Courtney Tsark was diagnosed with Stage 4 colon cancer in Nov.2022

Nurse Courtney's Cancer Treatment

Cheryl Haseeb is organizing this fundraiser on behalf of Courtney Tsark.

Courtney (Welch) Tsark

Mother to the sweetest, funniest 8 year old, Charlotte. Soon to be wifey to my biggest fan, Mat, and dog mom to my three legged Golden Doodle, Bizirik.

Unexpectedly relocated to Houston from our home in Maui, Hawaii November, 2022 due to a recent diagnosis of advanced colon cancer. All of us came here with one carry on bag. leaving behind our family, friends, Kitty, bunnies, jobs, and school to hopefully kick these aggressive tumors to the curb. Maui, unfortunately, is not paradise when you are given a stage IV diagnosis. There is one very small hospital and very few oncologist. I feel so grateful to be able to be seen at MD Anderson in such a short amount of time.

May 16, 2023 - Edmonton, Alberta - Pediatric Nurse Kristina Garbaria-Youb was diagnosed with a Stage 4 metastatic cancer in the brain and lungs

Support Kristina Youb's Fight Against Cancer

We are reaching out to you today to ask for your support for Kristina Garbaria-Youb and her family during this incredibly difficult time.

Kristina has dedicated her adult life to bettering the lives of children, serving as a devoted pediatric nurse at the Stollery Children's Hospital for over 16 years and as a dance teacher for decades. Her love and dedication to her community have touched countless lives, and we know that many of you have been fortunate enough to experience her infectious smile and sense of humour.

However, our beloved Kristina has recently recieved some heartbreaking news. In April 2023, after experiencing double vision and further nerve pain and numbness, she was diagnosed with a brain tumor that required immediate surgery. On May 5th, 2023 the tumor was successfully removed. On May 12th, 2023 she received the devastating news, further tests revealed that Kristina has stage 4 metastatic cancer of the brain and lungs.

May 10, 2023 - Sparks, NV - Nurse Sara Carolla-Volk was diagnosed with Stage 4 melanoma with brain metastases on Oct.1, 2022

Sara Carolla- Volk

Kitty Florez is organizing this fundraiser.

Friends and family, Sara Carolla-Volk needs our support. As many of you are aware, she was diagnosed with Stage 4 Melanoma with Brain Metastasis on October 1, 2022. Sara had not been feeling well for quite some time when she was taken to the E.R. for left side weakness. Hours later they confirmed she had several masses in her brain that required immediate surgery.

May 8, 2023 - Wolcott, CT - 39 yo nurse Heather Podzunas Hogaboom died on May 8, 2023. Got 1st Moderna mRNA on Dec.24, 2020, 2nd on Jan.21, 2021. 4 months later she was diagnosed with Stage 4 colorectal cancer.

Heather Podzunas Hogaboom

January 21, 2021 · 🌐

I have been asked many questions since I got my first dose of the COVID vaccine on 12/24. After receiving my second dose on 1/21, the questions increased.

I've compiled a list of the questions I've been asked the most with my responses.

Keep in mind, I'm not an infectious disease expert and these answers are based on my own knowledge and experience. (Since we live in a litigious society, I should also add a legal caveat that these thoughts are my own and may not reflect the thoughts of my employers or network).

Q: Which vaccine did you get?

I got the Moderna mRNA vaccine.

Q: Why did you get Moderna & not Pfizer?

I wasn't given an option. Nor did I care. I would've gotten either.

Q: Did you have any symptoms?

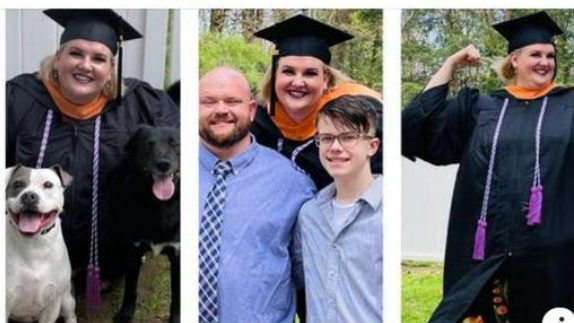

After the first dose, my arm was minimally sore. I was very lethargic on day two, which lasted about 12 hours. It hit me about 24 hours after my first dose. I was able to work that night. Day 3, I had minimal congestion, it was not bothersome and I required no medication for it. After the second dose, I had a minor headache within a few hours, which was easily relieved with ibuprofen. My arm was sorer this round, but not so much pain where I couldn't use it. I also noticed some swelling at the injection site the second day. I was feeling pretty fatigued the next day and napped the majority of the afternoon, but worked that night. I had no further side effects after day two.

Podzunas Hogaboom Family is organizing this fundraiser on behalf of Heather Podzunas Hogaboom.

Heather was just recently diagnosed with Stage IV colorectal cancer.

While we all know how strong and optimistic Heather is, the battle will be long and hard.

Let's rally together behind Heather to support her and lift her up with positives vibes. The treatments, medications, and other medical expenses are expected to be costly, so we have put together a page to help collect some funds to help Heather keep her mind off the financial burden and focus on her healing.

May 5, 2023 - Laguna Hills, CA - Nursing student Sofie was diagnosed with Lymphoma which forced her to drop out of nursing school

Support Sofie during her fight against cancer!

Marcus Miller is organizing this fundraiser.

Dear friends and family,

We are writing to ask for your support for our daughter Sofie, who is currently fighting Lymphoma. Sofie was an outstanding nursing student until back pain forced her to drop out of school. Despite this setback, she has persevered and is now studying child development as an alternative career.

May 2, 2023 - Santa Cruz, CA - 20 year old Shyama Mohini, a student with plans for nursing school, was just diagnosed with Stage 4 Hodgkin Lymphoma

Donate to help Shyama Mohini Diana !

Team fundraiser

SUSAN KIRKMAN and Heather Diana are organizing this fundraiser on behalf of Heather Diana.

Hi, my name is Sanatani Kirkman and I am setting up the gofundme for our dearest Shyama Mohini. She is the beautiful daughter of Braja Mohini didi and Jayanta prabhu. Recently, Shyama was diagnosed with Stage 4 Hodgkins Lymphoma. This news has devastated all of us.

She is a 20-year-old student with plans for nursing school, which doesn't surprise any of us, as she is always taking care of others. Just like her mother!

She is unable to work as she is starting chemotherapy this week and will not be in any

May 1, 2023 - Milwaukee, WI - Neonatal ICU nurse Sherry Zych was diagnosed with Stage 4 bilateral lung cancer

Sherry's Fight is OUR Fight!!

Brooke King is organizing this fundraiser.

Hi there!

We are writing on behalf of our dear friend Sherry Zych who was recently diagnosed with stage 4 bilateral lung cancer. She is our leading lady in the neonatal intensive care unit and is AWESOMESAUCE at her job. We don't know much just yet as it's all fresh with many follow-up appointments this week. What we do know is that she needs us to come together and send positive vibes and prayers (per her request) for her upcoming PET scan on 5/9. We'd like to raise a little money for her and her family, as we all know

March 2023 - Montgomery, AL - 36 year old Reid Williams a nurse was diagnosed with Stage 4 colon cancer that had spread to his liver

COVID VACCINE INJURIES .COM

@Storiesofinjury

...

A 36 year old father of 3, is battling stage 4 colon cancer. The nurse anesthetist was diagnosed just 3 months ago, in December.

By the time he was diagnosed, the cancer had already spread to his liver.

Sadly his employer followed the Biden Vaccine mandate.

Feb.2023 - Hamburg, NY - Nurse Kelly Englert was diagnosed with Lung cancer 3 years ago that has just spread to her brain.

Let's help Kelly crush Cancer!

Cheryl Taddio is organizing this fundraiser on behalf of Kelly Englert.

Hello, we are a group of Kelly's coworkers helping her to raise money as she is battling Cancer along with her daughter. Kelly has been working with Cancer patients for over 15 years, she has been on the front lines fighting for their lives as, a bedside nurse, educator and now a nurse manager. She is passionate about the care she provides and always smiling under a mask even though she has been in the same battle for 3 years.

Kelly was diagnosed with Lung Cancer 3 years ago that has now spread to her brain. Her daughter Kaitland was diagnosed with a brain tumor that has now changed into stage 4 Glioma.

Jan.2023 - 32 year old oncology nurse April Addison was diagnosed with breast cancer the day after she delivered her son by C-section. She has no family history of breast ca

Jan.2023 - Bellingham, WA - Nurse Practitioner Devyn Nixon was diagnosed with breast cancer and underwent chemo recently

Devyn Nixon, NP @DtheNP · Jan 9

Having a huge family is lovely most of the time but it's tough when you have to share hard news. With the exception of the younger ones, I've informed them all that I have breast **cancer**. My niece wrote her feelings out saying maybe pink isn't her favorite color 💔

Devyn Nixon, NP @DtheNP · Dec 24, 2020

Coming up on 24 hrs since my first dose of the Pfizer **COVID-19** vaccine (it's not red y'all 🤔) and I feel good. Good enough for a run in the snow ❄️ with the dogs 🐾. (I don't recommend w/o spikes). 1/ [#ThisIsOurShot](#)

@DtheNP

I received the first 1/2 Pfizer COVID-19 vaccinations. It's been a long ride and it's far from over but this is a start. My surprise was me saying "That was it?" [#ThisIsOurShot](#) [#healthcare4theculture](#) [#lit4health](#)
